Uses

Symptomatic treatment of dermatitis, nappy rash, ichthyosis, eczema, protection of raw and abraded skin areas, pruritus and related conditions where dry scaly skin is a problem. Also as a pre-bathing emollient for dry/eczematous skin.

Format and Ingredients

Cream

Dosage

Adults and children: a thin application should be gently massaged into the skin 3 times daily or at appropriate intervals. When used as a protective cream apply sparingly to the affected areas before, or immediately after, exposure to a potentially harmful factor.
